Dear DDs,

I have gone thru the Templates that John identified where CCTE was either and Output or Product Lead and added CCTE contributors to the respective divisions (new columns at end of spreadsheet). I have also added a few products where we don't lead, but were identified as contributors. This may be useful to see where your staff plans on working according to the templates. It is by no means a complete evaluation of all of the templates and I certainly missed some names going thru the templates, but it is a start to compiling this info.

All,

I just wanted to provide some additional clarification for filling out the review spreadsheet:

- ## Ex. 5 Deliberative Process (DP)

Please let me know if you have any questions or need any additional information. Once we receive everyone's reviews tomorrow, we will compile into one sheet.

Thanks.

All,

Please find attached:

- (1) spreadsheet containing a list of CCTE-led products for the six ORD national research program and
- (2) guidance to help you in providing your review of the products.

As per Reeder's email below, please send the completed spreadsheet to Doug Young and myself by June 26, 1 PM. We will compile all the reviews into a summary file and share it with the group. Please let me know if you have any questions or would like any additional information. Thank you in advance for your input.

Mike,

I have provided links in the spreadsheet to the Research Area templates, which provide product descriptions and other useful details. Please let me know if you are not able to access the files and we can send them to you or make them available via another option.

John
